<input type="checkbox"/> _____ Biological Sciences Course* (approved by Advisor)	

---

<b>Electives</b>	<b>Credit hours: 14-37</b>
------------------	----------------------------

---

**TOTAL HOURS REQUIRED FOR GRADUATION: 120**

\* A biological sciences course is required for the CSD major and must be approved by the academic advisor. The intent is that this be a human cellular biology course. An approved biological sciences course taken for General Education or Bachelor Degree requirements will fulfill the CSD requirement. However, a course cannot double count for both General Education and Bachelor Degree requirements (all Bachelor Degree requirements are in addition to what was taken to fulfill General Education).
